### INSTRUÇÕES DE MONTAGEM

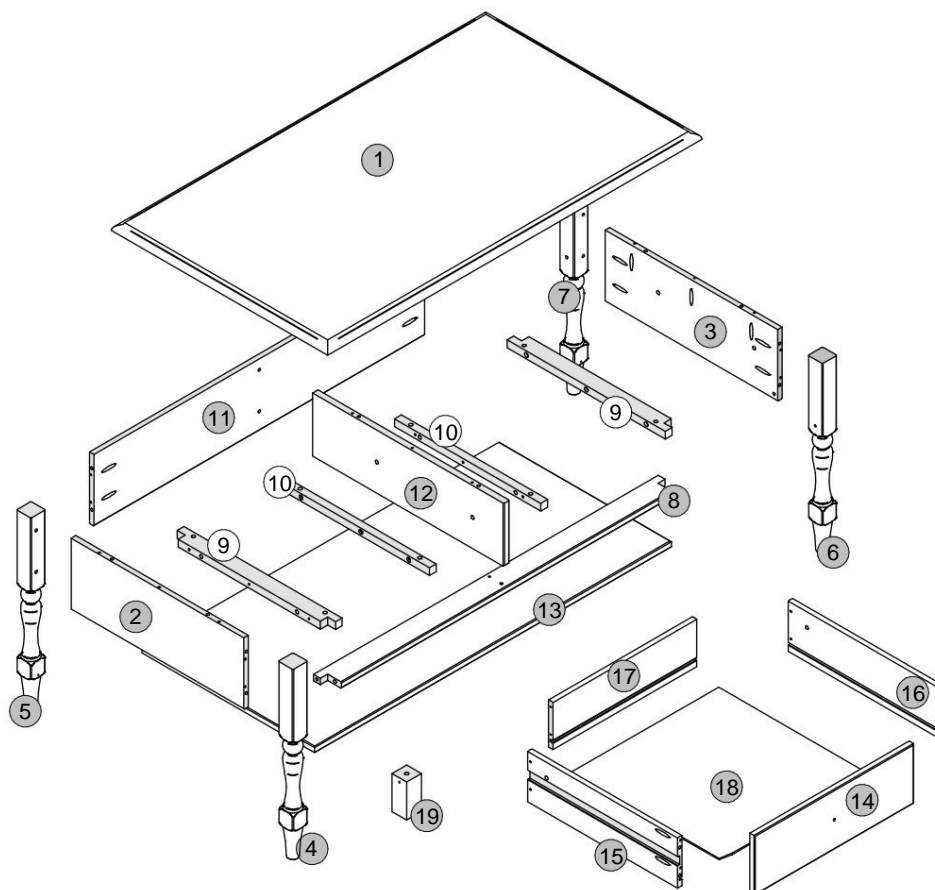

**IMPORTANTE**  
**SOMENTE PARA USO DOMÉSTICO**  
**POR FAVOR, LEIA ANTES DE CONTINUAR**

### **CUIDADOS E MANUTENÇÃO**

Após desembalar o produto, guarde a embalagem original caso precise devolvê-lo por algum motivo.

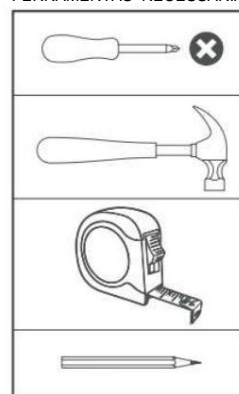

- Certifique-se de que todos os acessórios e peças estejam presentes antes de iniciar a montagem.
- Nunca arraste ou empurre os produtos, pois isso pode danificar as juntas, comprometendo sua qualidade.
- Recomendamos enfaticamente que mantenha as crianças afastadas da sua área de trabalho.
- Recomendamos que coloque um cobertor ou lençol no chão para evitar danos tanto ao piso quanto ao produto.
- Instale este produto o mais próximo possível de sua posição final.
- Não coloque este produto perto de um radiador ou sob luz solar direta.
- Não arraste ou empurre objetos sobre seus móveis de alto brilho, pois isso pode riscar a superfície.
- A madeira é um produto natural e pode contrair-se se exposta à umidade e expandir-se se exposta ao calor.
- Portanto, recomenda-se manter a temperatura ambiente, sem flutuações bruscas de temperatura.
- Certifique-se de limpar imediatamente qualquer líquido derramado.
- Não coloque alimentos quentes ou frios diretamente sobre a superfície; use um jogo americano ou ficará com marcas.
- Para limpeza geral, use um pano macio de algodão ou microfibra e não utilize detergentes de nenhum tipo.
- Ocasionalmente, pode ser necessário apertar as conexões; inspeções regulares devem ser realizadas.
- Não coloque em piso molhado ou úmido, pois podem surgir manchas no chão.

Após a montagem, utilize um produto de limpeza à base de álcool para apagar os números impressos nas peças que são visíveis.
