

The diagram illustrates a 3D architectural facade for a building named 'BELGRADO'. It features three vertical columns of rectangular panels. The left column consists of three white panels, each labeled '29' in the center. The middle column consists of three grey panels, each labeled '29/30' in the center. The right column consists of three white panels, each labeled '29' in the center. The panels are arranged in a staggered fashion, creating a sense of depth. The entire structure is labeled 'BELGRADO' vertically on the left side. The panels are connected by horizontal lines, and the overall structure is supported by vertical pillars. The labels '33' and '35' are placed at the top and between the panels, respectively, indicating specific measurements or identifiers.

The diagram shows two options for the chair base: 'Pé de Plástico' (Plastic Foot) and 'Pé de Madeira' (Wooden Foot). For the plastic foot, a separate plastic foot (labeled 1) is shown, and a detail view shows it being inserted into the base plate with screws. For the wooden foot, a wooden foot (labeled 2) is shown, and a detail view shows it being inserted into the base plate with a screw.

Atenção: O Pé de Madeira deverá ser fixado da Lateral/Rodapé para o Pé (de fora para dentro) com parafusos 4x45 como mostra a ilustração acima.
