AVISO

Para limpeza de seu móvel, use uma flanela seca ou umedecida, e não utilize produtos químicos que possam danificar seu produto.

SISTEMA DE MONTAGEM

O sistema de montagem dos produtos, funciona de acordo com a ordem crescente dos números indicados no desenho. Ex: 01, 02, 03, 04... até a conclusão da montagem.

ASSISTÊNCIA TÉCNICA

Para solicitação de Assistência Técnica você consumidor deverá entrar em contato com o Lojista o qual você realizou a compra deste produto e solicitar a assistência técnica das peças avariadas. A garantia abrange todas as peças, partes e componentes que eventualmente venham apresentar defeito de fabricação no prazo de 03 (três) meses, contando a partir da entrega do produto ao consumidor, mediante nota fiscal de compra. Se houver qualquer alteração na estrutura do produto ou ocorrer defeito por negligência do montador/consumidor em relação a instrução de montagem e manuseio, não será fornecido assistência técnica gratuita.

ADVERTENCIA

Para limpeza de su móvil, use una flanela seca o húmeda, y no utilice productos químicos que puedan dañar su producto.

SISTEMA DE MONTAJE

El sistema de montaje de los productos funciona de acuerdo con el orden creciente de los números indicados en el dibujo. Ej.: 01, 02, 03, 04... hasta la conclusión del montaje.

ASISTENCIA TÉCNICA

Para solicitar Asistencia Técnica, el consumidor debe comunicarse con el Comercio que usted realizó la compra de este producto y solicita asistencia técnica para las partes dañadas. La garantía cubre todas las partes, piezas y componentes que eventualmente puedan presentar defecto de fabricación en el plazo de 03 (tres) meses, contados a partir de la entrega del producto al consumidor, mediante factura de compra. Si se produce algún cambio en la estructura del producto o se produce un defecto por negligencia del montador/consumidor en relación con las instrucciones de montaje y manipulación, no se prestará asistencia técnica gratuita.

NOTICE

To clean your furniture, use a dry or wet cloth, and do not use chemicals that may damage your product.

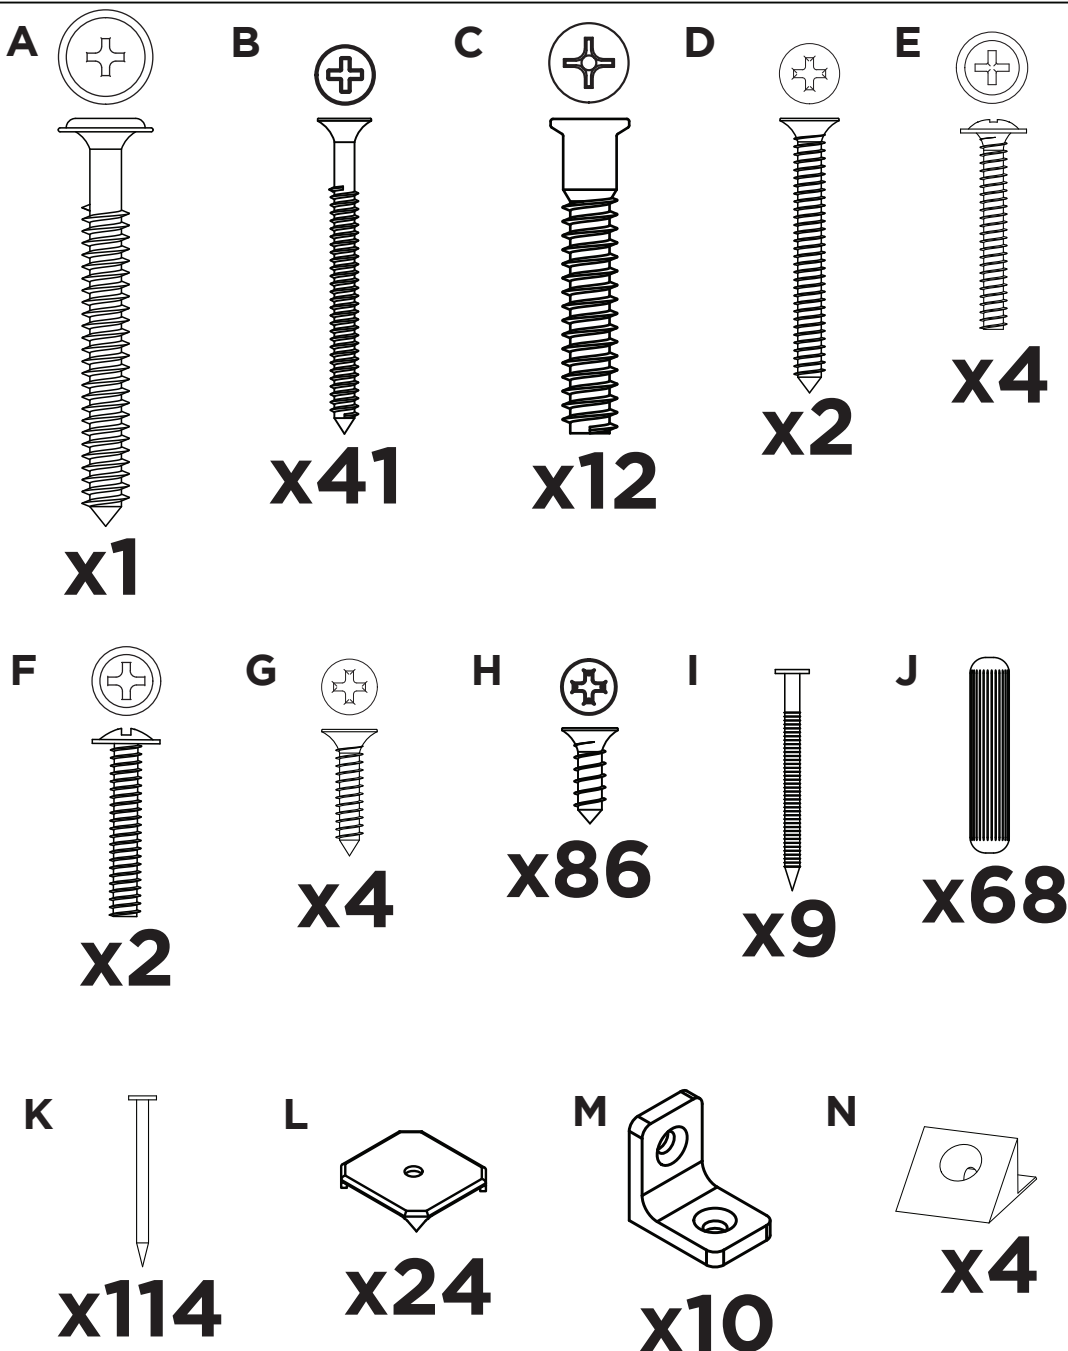

ASSEMBLY SYSTEM

The products' assembly system works according to the increasing order of the indicated numbers. For example: 01, 02, 03, 04 ... to the end of the assembly.

TECHNICAL ASSISTANCE

To request Technical Assistance, the consumer must contact the retailer from whom you purchased this product and request technical assistance for the damaged parts. The warranty covers all parts, parts and components that may eventually present a manufacturing defect within a period of 03 (three) months, counting from the delivery of the product to the consumer, by means of a purchase invoice. If there is any change in the structure of the product or defect occurs due to negligence of the assembler/consumer in relation to the assembly and handling instruction, free technical assistance will not be provided.

2. $18 \text{ kg/m}^3 \pm 2,0 \text{ kg/m}^3$ (D18).

IMPORTANTE LEER CON ATENCIÓN Y GUARDAR PARA EVENTUALES CONSULTAS

I) **Advertencias:** No colocar o utilizar el producto cerca de llama abierta y otras fuentes de calor, tales como calentadores eléctricos, calentadores de gas u otras fuentes, ya que el material es inflamable.

II) No utilice la cuna si alguna parte está rota, rasgada o faltada. Utilice sólo piezas de repuesto recomendadas por el fabricante.

III) No deje ningún objeto dentro o cerca de la cuna que pueda servir de punto de apoyo o ofrezca riesgo de sofocación, engaño o estrangulamiento, como por ejemplo cuerdas, cordones de persianas / cortinas, protectores, cojines, juguetes, hilos y cables de aparatos eléctricos.

IV) Nunca utilizar más de un colchón en la cuna.

V) Los niños pequeños no pueden jugar, sin vigilancia, en las proximidades de una cuna.

VI) Atención: cuando el niño es capaz de escalar la cuna, ya no puede ser utilizado por ese niño, pues esta cuna fue construida para uso por niños con capacidad motora para sentarse, arrodillarse y / o levantarse pero que todavía no son capaces de escalar la cuna.

VII) Para cunas con más de una función, no sujeta a la reglamentación: Este producto atiende a la reglamentación para cunas infantiles, no siendo sus demás funciones sujetas a la reglamentación.

VIII) Esta cuna no puede ser alterada, sea en su estructura o en sus adornos, pues riesgos a la seguridad del niño pueden ser generados.

IX) La longitud y la anchura del colchón utilizado con la cuna deben cumplir las especificaciones de este manual.

I) **Orientaciones:** La Sociedad Brasileña de Pediatría orienta a colocar al bebé para dormir de barriga hacia arriba, pues disminuye en un 70% el riesgo de muerte súbita. Recomendamos conversar con el pediatra de su hijo para mayor información.

II) Sólo utilice la cuna cuando esté totalmente montado de acuerdo con las instrucciones del Manual de instrucciones y después de asegurarse de que sus sistemas de bloqueo están debidamente accionados.

III) La cuna debe colocarse sobre un piso horizontal.

IV) Para cunas con altura de base ajustable: La posición más baja es la más segura y la base debe ser siempre utilizada en esa posición tan pronto como el bebé tenga la edad suficiente para sentarse.

V) Cuando existan dispositivos de apoyo desmontables para apoyar la base de la cuna por encima de su posición más baja: Antes de que la cuna se utilice en su posición más baja, se deben quitar los dispositivos utilizados para apoyar la base en posiciones más altas.

VI) Las conexiones de montaje siempre deben ajustarse adecuadamente y verificadas regularmente, a lo largo del uso de la cuna, y reapertadas según sea necesario. VII) Si alguna parte de la cuna se rompe o presenta defecto, se debe buscar asistencia técnica especializada y no realizar reparaciones caseras.

VIII) Orientaciones para el espesor del colchón, que pueden darse de las siguientes formas:

a) La longitud y la anchura del colchón utilizado con la cuna deben ser tales que nunca sea posible la formación de espacio mayor a 30 mm entre los laterales o los extremos y el colchón.

b) El espesor del colchón debe ser tal que la altura interna (de la superficie del colchón hasta el borde superior del armazón de la cuna) sea de al menos 480 mm en la posición más baja de la base de la cuna y al menos 180 mm en la posición más elevada de la base de la cuna.

c) cuando se utilice un marcado en la cuna para indicar el espesor máximo del colchón: El marcado en la cuna indica el grosor máximo del colchón que se utilizará con la cuna.

IX) Recomendación sobre el tamaño mínimo de colchón que se utilizará con la cuna. Para la Cuna Mini Cama Ternura, se recomienda el uso de un colchón de 1,30 m $\pm$ 0,5 cm longitud, 70 cm $\pm$ 0,5 cm de ancho y 12 cm $\pm$ 0,5 cm de alto, con una densidad mínima de 18 kg / m³ $\pm$ 2,0 kg / m³ (D18).

WARNING READ WITH ATTENTION AND SAVE FOR EVENTUAL CONSULTATIONS

- I) **Warnings:** Do not position or use the product near open flame and other sources of heat such as electric heaters, gas heaters or other sources as the material is flammable.
- II) Do not use the crib if any part is broken, torn or missing. Use only replacement parts recommended by the manufacturer.
- III) Do not leave any object in or near the crib that may serve as a foothold or risk of suffocation, choking or strangulation, such as ropes, blinds / curtain cords, protectors, cushions, toys, wires and cables of electrical appliances.
- IV) Never use more than one mattress in the crib.
- V) Small children may not play, unattended, in the vicinity of a crib.
- VI) **Caution:** when the child is able to climb the crib, it can no longer be used by this child, as this crib was built for use by children with motor ability to sit, kneel and / or get up alone but not yet able to climb the crib.
- VII) For cribs with more than one function, not subject to regulation: This product complies with regulations for baby cribs, and its other functions are not subject to regulation.
- VIII) This crib can not be altered, either in its structure or in its adornments, because risks to the child's safety can be generated.
- IX) The length and width of the mattress used with the crib must comply with the specifications of this Manual.
- I) **Guidelines:** The Brazilian Society of Pediatrics advises to place the baby to sleep on his belly up, as it reduces the risk of sudden death by 70%. We recommend talking to your child's pediatrician for more information.
- II) Only use the crib when fully assembled in accordance with the instructions in the Instruction Manual and after making sure that your locking systems are properly engaged.
- III) The crib must be placed on a horizontal floor.
- IV) For cribs with adjustable base height: The lowest position is the safest and the base should always be used in this position as soon as the baby is old enough to sit.
- V) When there are detachable supporting devices to support the crib base above its lowest position: Before the crib is used in its lowest position, the devices used to support the crib in the highest positions should be removed.
- VI) The mounting connections must always be tightened properly and checked regularly, throughout the use of the crib, and retightened as necessary.
- VII) If any part of the crib breaks or is defective, you should look for expert technical assistance and no home repairs.
- VIII) **Guidelines for the thickness of the mattress, which may be given in the following ways:**
- a) The length and width of the mattress used with the crib shall be such that it is never possible to form a space greater than 30 mm between the sides or ends and the mattress.
- b) The thickness of the mattress shall be such that the inner height (from the mattress surface to the upper edge of the cradle frame) is at least 480 mm in the lowest position of the cradle base and at least 180 mm in the highest position of the cradle of the crib.
- c) When a marking is used on the crib to indicate the maximum thickness of the mattress: The marking on the crib indicates the maximum thickness of the mattress to be used with the crib.
- IX) **Recommendation on the minimum size of mattress to be used with the crib.** For Crib Mini Bed Ternura, the use of a 1,30 m $\pm$ 0.5 cm mattress is recommended length, 70 cm $\pm$ 0,5 cm wide and 12 cm $\pm$ 0,5 cm high, with a minimum density of 18 kg / m³ $\pm$ 2,0 kg / m³ (D18).
